

BAND DATA

Biography

Based on a duet (Lord Valek/Blaise), Fallacious World formed when Nicolas joined the band to play guitar in 2003. Drum and keyboard were then programmed. A 4 tracks demo CD (Nothing to hope) is recorded.

En 2004, when Dorothée joins the band to play drum and Louis to play keyboard, Fallacious World is liberated from its inescapable rhythms.

As **Tears of blood** is released and Valek leaves the band in 2006, Fallacious World ends its first period. Nicolas replace Valek on vocals.

From 2008, the idea of a new album is shared by all. Many songs are recorded but none of them will be published.

New songs are recorded in 2011. They are more satisfactory and **Within two worlds** is released in 2012.

The request for an original song from the russian label Darkpage for a compilation released in 2016 make germinate the idea of third album...

Tricky thing is released in august 2018.
